LYON**

POUR AMATEURS ÉCLAIRÉS

from November 30 to December 2, 2018

— Partners file —

For light amateurs

02

We no longer present the SaintéLyon, the race of all superlatives. The oldest with 65 editions on the clock; the most atypical with its winter, nocturnal, luminous, urban and wild character at the same time; the most essential with its 17,000 runners in 2017 which make it the biggest French nature race in number of participants.

So many qualifiers that make the SaintéLyon the rendezvous cult of the end of the season for all runners. The race to do "at least once in a lifetime". In 2018, 17,000 runners from all the French departments and about 60 countries are expected on the various formulas offered.

At the heart of an exceptional arrival site, the prestigious Halle Tony Garnier, more than 120 exhibitors and nearly 40,000 visitors are expected in 2018.

*The Salon
du Trail Running
held 2 days before
the event, is already
a reference in the
world of running
and outdoor.*

Saintelyon, a mixed race (60% trail / 40% road)

SaintéLyon, a concept and a unique image

06

SaintéLyon is the oldest and the largest french nature race. It links two metropolises to the historical rivalry, Lyon (69) & Saint-Étienne (42).

SaintéLyon is an event which, by its atypical winter and nocturnal configuration, differs from the vast majority of running events. With its history, this strong personality and the different formulas on offer, SaintéLyon has become the ultimate end of season event. This event develops true values of surpassing oneself, solidarity and sharing, while remaining accessible to the greatest number.

Like the world of natural running, the SaintéLyon conveys a virtuous image in environmental matters and sustainable development. Many actions, in collaboration with the Auvergne-Rhône-Alpes region, are put in place on the event: preventive communication, green brigade, eco-responsible cup system, organized waste sorting with dedicated team on all sites, "Green ballad" to clean the race...

The mixed nature of the event (60% of trails and 40% of road) allows to touch at the same time the universe of the Trail but also more widely Running.

Sometimes, the extreme conditions (night, cold, snow, mud...) of the event also create a gateway to the world of Outdoor and Mountain.
